

AJINKYA KAILAS PATIL

Data Analyst | Machine Learning | Power BI | Python | SQL

ajinkyap1614@gmail.com | +91 93223 55958 | <https://www.linkedin.com/in/ajinkyapatil-dataanalyst/> | <https://github.com/AJINKYAPATI>

Portfolio:- <https://ajinkyapatil1-portfolio.netlify.app/> | Pune, Maharashtra

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Machine Learning with a B.Tech in Computer Science (2026 graduate), skilled in Python, SQL, Power BI, and Excel. Experienced in data analysis, machine learning, dashboard development, and business intelligence with professional internship experience and hands-on projects in analytics and machine learning. Proven ability to transform complex data into actionable insights through interactive dashboards, ETL automation, and data-driven solutions. Certified by Microsoft, Google Cloud, and Databricks.

SKILLS SUMMARY

Languages:	Python, SQL
Data Analysis:	Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization, Statistical Analysis, Data Modeling, ETL, A/B testing, KPI / reporting, Stakeholder reporting
Visualization:	Power BI, Tableau, Matplotlib, Seaborn, Streamlit, DAX, Plotly
Machine Learning:	OpenCV, TensorFlow, OCR, Clustering, LSTM, Deep Learning, RFM Analysis
Tools & Platforms:	MySQL, Advanced Excel, Databricks, Jupyter Notebook, VS Code, Git, GitHub, Google Cloud

WORK EXPERIENCE

Data Analyst Intern – Linkcode Technologies Pvt. Ltd.	Jan 2026 – Apr 2026
- Analyzed and cleaned 20,000+ data records using Python, SQL, and Excel, improving data accuracy by 35% and enabling more reliable reporting. - Gathered reporting requirements from the operations team and built 3 Power BI dashboards and KPI reports, cutting manual reporting time by 4 hours weekly - Performed EDA on real-world business datasets, uncovering insights that improved operational decision-making by 30%. - Automated ETL data transformation workflows using Python, Pandas, reducing pipeline processing errors by 25%.	

PROJECTS

Barcode + OCR Verification System	July 2026
Tech Stack: Python, Streamlit, OpenCV, PaddleOCR/EasyOCR/Tesseract, Pandas, NumPy	
Github:- https://github.com/AJINKYAPATI/Barcode-OCR-Verification-System	
- Built a production-grade Barcode + OCR Verification System in Python/Streamlit that automates label quality-control checks by cross-verifying barcode values against OCR-extracted text, replacing manual visual inspection. - Engineered a multi-engine detection pipeline (OpenCV, ZXing, pyzbar for barcodes; PaddleOCR, EasyOCR, Tesseract for OCR) with automatic fallback and confidence-based voting, improving read accuracy across varied image quality. - Implemented fuzzy text-matching to auto-flag barcode-vs-OCR mismatches, with batch processing and CSV/Excel/PDF export support.	
SegmentIQ – Customer Intelligence & Segmentation System	Feb 2026
Tech Stack: Python, Scikit-learn, KMeans, Pandas, Streamlit, Plotly, Matplotlib	
Live:- https://smartseg-predictive-analytics-project-qg3ptgcc8n6pjmvdrrushf.streamlit.app/	
- Segmented 5,000+ customers using K-Means clustering and RFM Analysis, enabling the marketing team to run targeted campaigns and improve campaign efficiency by 38%. - Applied feature engineering and clustering algorithms to improve customer group prediction accuracy by 28%. - Identified high-value customer segments contributing to 60% of total revenue, providing actionable recommendations to the business.	
Voice-Based Mental Health Monitoring System	Aug 2025
Tech Stack: Python, TensorFlow, LSTM, Librosa, Streamlit, Matplotlib, Deep Learning	
Live:- https://speech-to-emotion-recogination-system-ejkr7ghxk55dzjmawti9h.streamlit.app/	
- Built a system achieving 89% accuracy (F1: 0.87) with 7 emotional states using LSTM; deployed model in Streamlit for real-time inference. - Processed 3,000+ audio samples using Librosa for feature extraction, improving emotion prediction performance over baseline models. - Developed a real-time voice analytics dashboard in Streamlit, reducing emotion analysis response time by 55%.	

CERTIFICATIONS

Microsoft – Data Analyst Associate	May 2026
Databricks – SQL Analytics and BI on Databricks	May 2026
Google Cloud – Introduction to Generative AI	May 2026
JPMorgan Chase – Software Engineering Job Simulation	Jan 2026
Deloitte – Data Analytics Job Simulation	Dec 2025

EDUCATION

B.Tech in Computer Science Engineering	2022 – 2026
Godavari College of Engineering, Maharashtra, India
